

Welcome to Logistiek Zonder Papier!

Documentation for using the LZP APP.

This document has been created especially for KWS to demonstrate how the app works.

Registration

www.lzp.nl

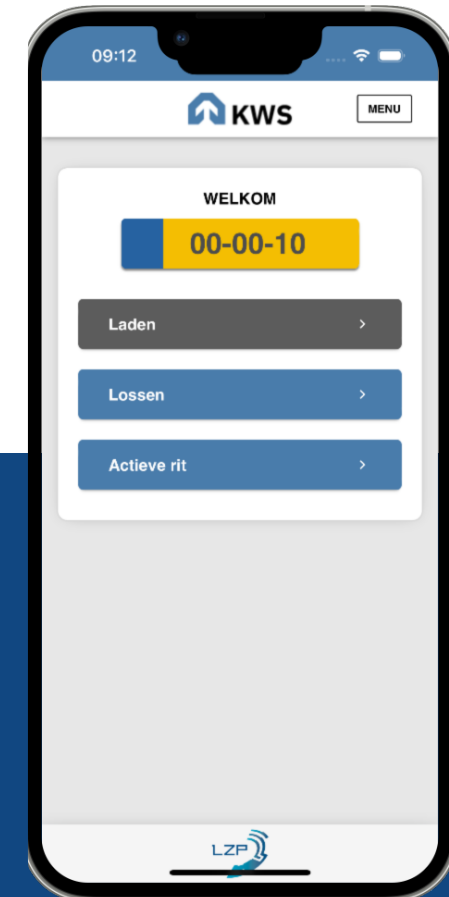

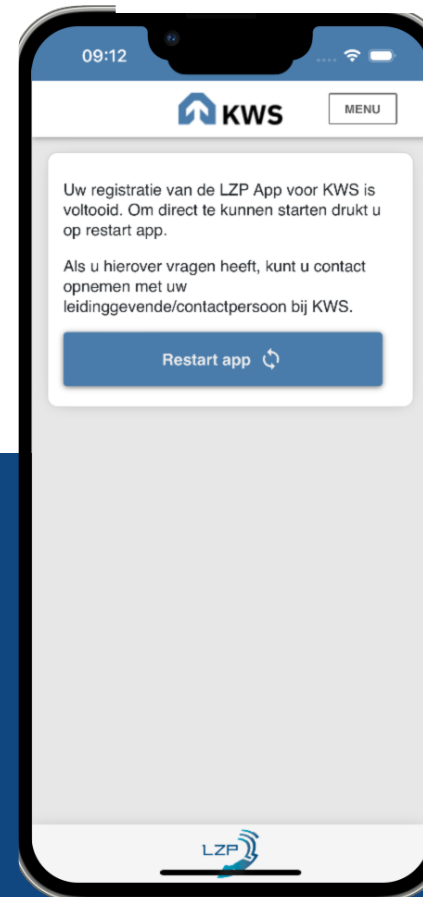

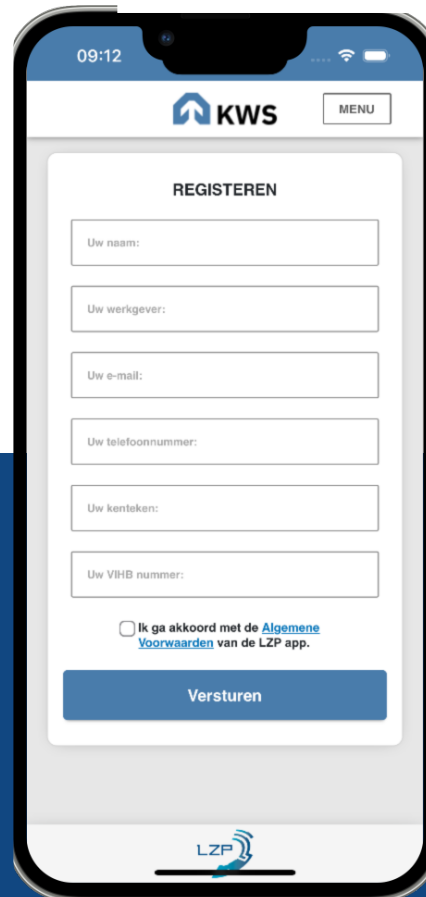

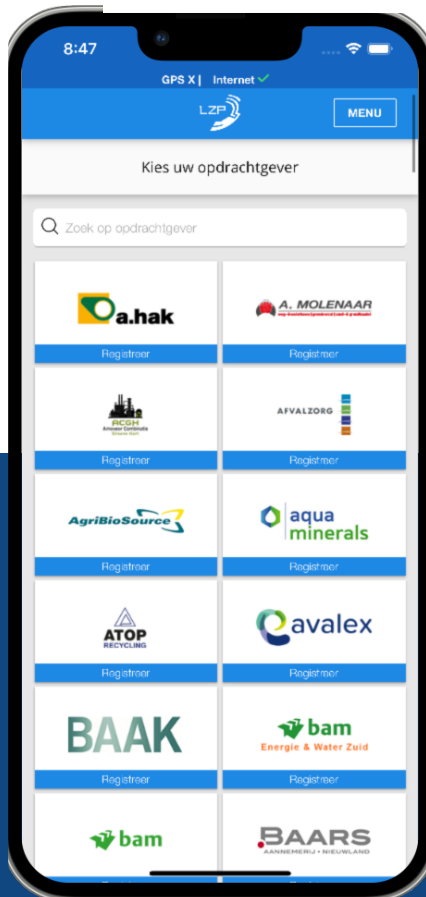

Registering the app

01 Select "KWS". You can use the search bar to find it.

02 Complete the registration form and press "Versturen".

03 Registration successful. Restart the app before you start using it.

04 The home screen will open.

Loading a trip

www.lzp.nl

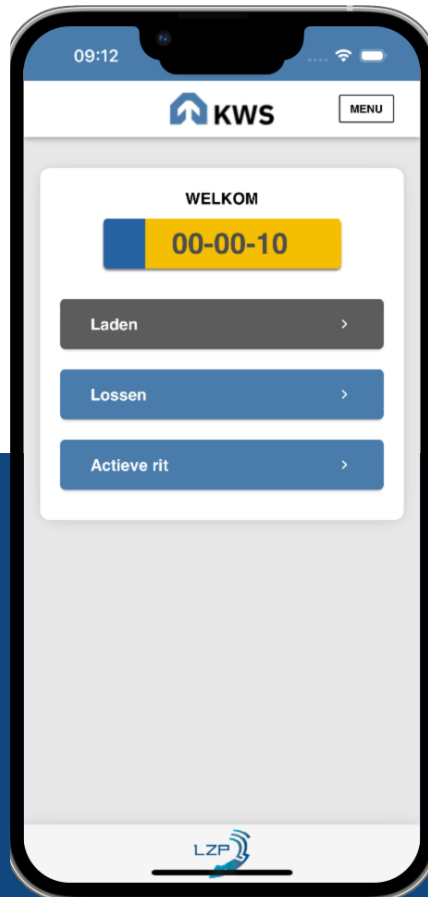

How it works

Loading a trip

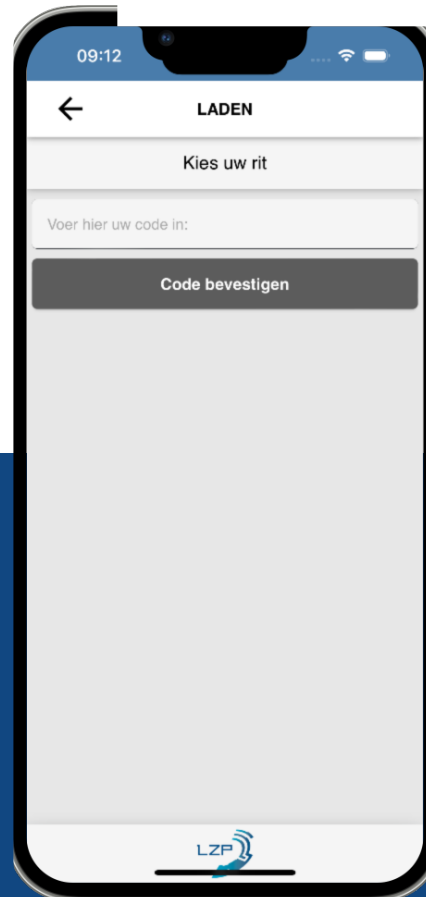

About screen 08

***Entered codes/waste streams are stored for 12 hours. After 12 hours, the app automatically removes them.**

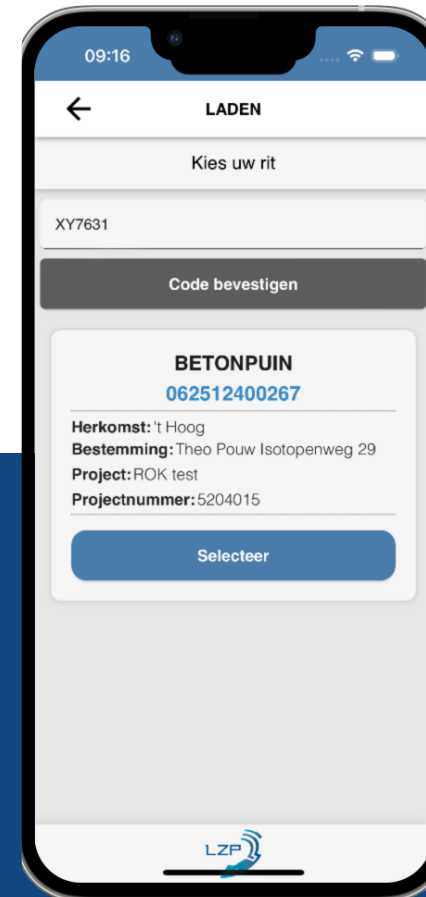

05 Select "Laden".

06 Enter the required code and press "Code bevestigen" to retrieve the linked waste stream.

07 The code/waste stream has been added successfully.

08 Press "Selecteer" to select this waste stream.

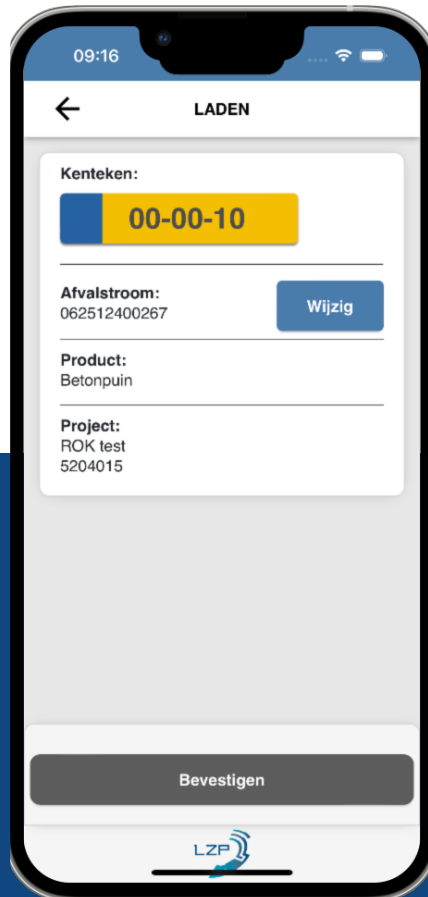

Continued Loading a trip

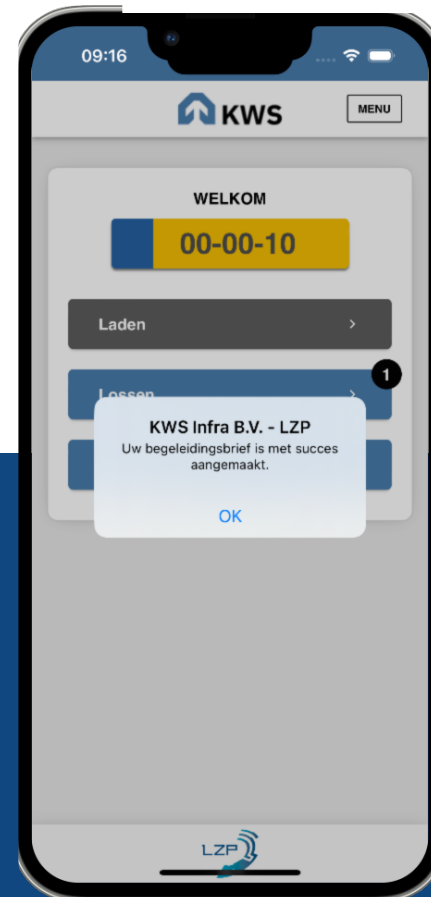

09

Review the details.
Press “Bevestigen”.

10

Trip created successfully.
You can now start
driving.

Viewing a document

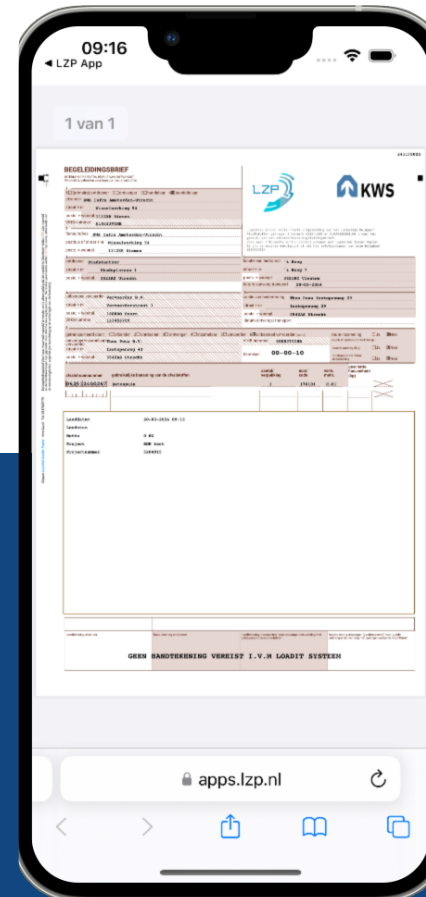

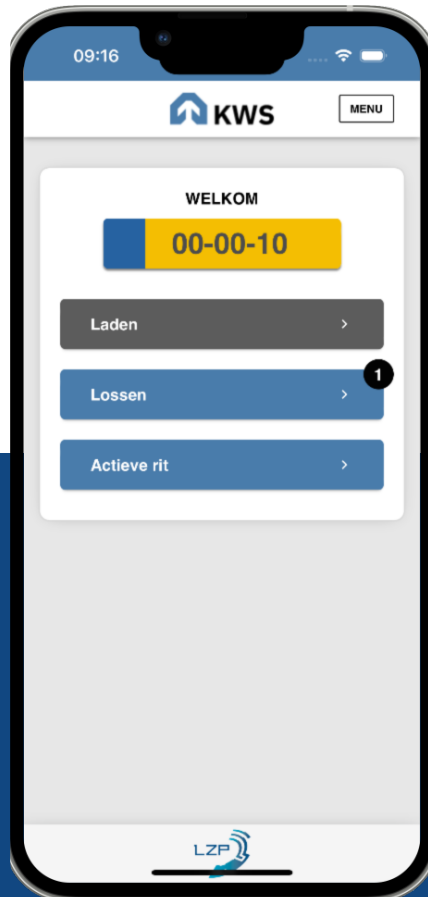

www.lzp.nl

Viewing a transport document

Enter the quantity and press "Volgende".

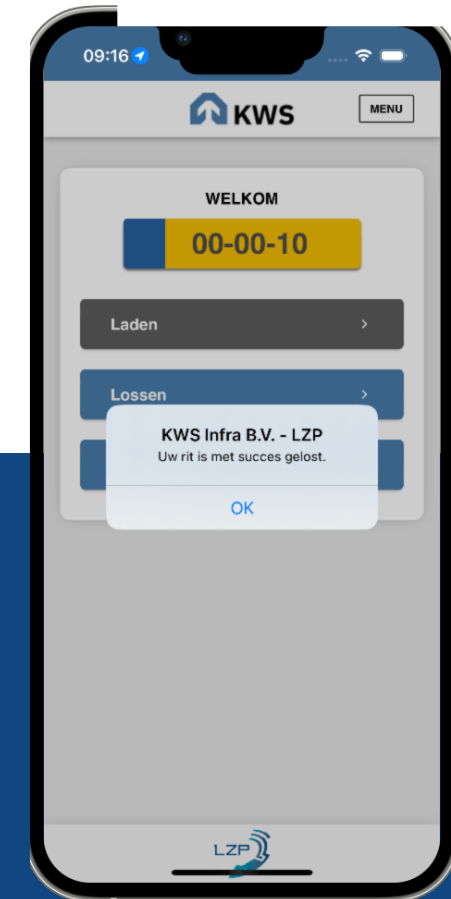

16

Review the details. Press "Bevestigen" to confirm.

17

Trip unloaded successfully. You can now start a new trip.

Additional features

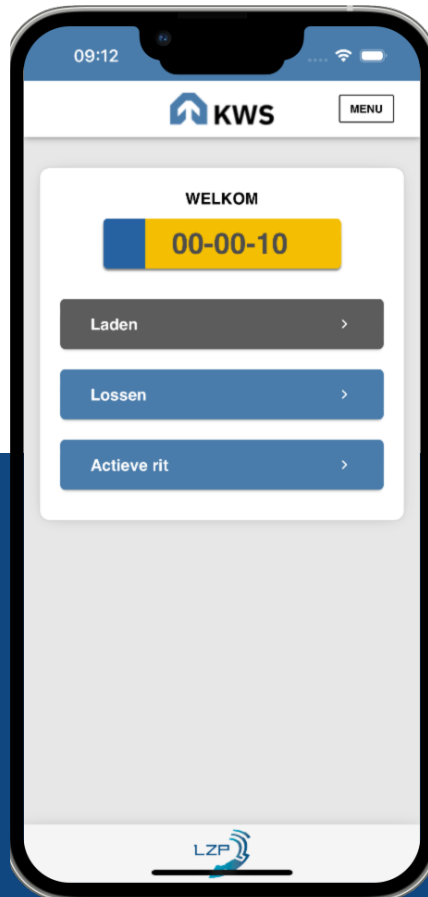

www.lzp.nl

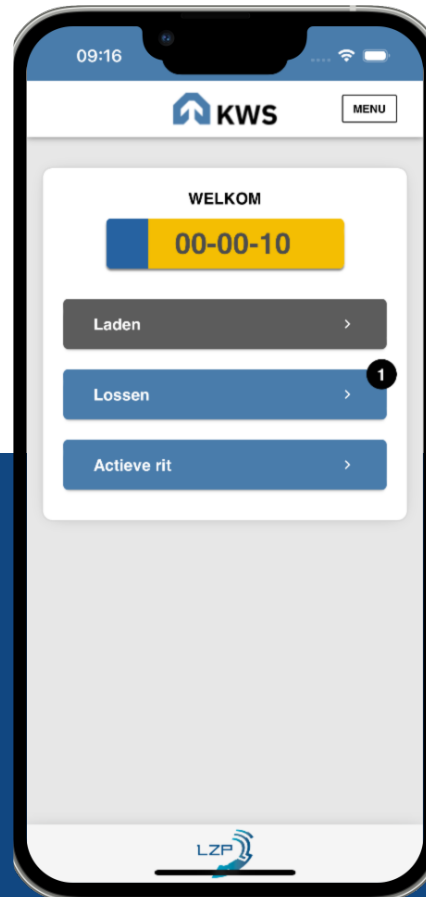

How it works

Changing a registration, license plate number

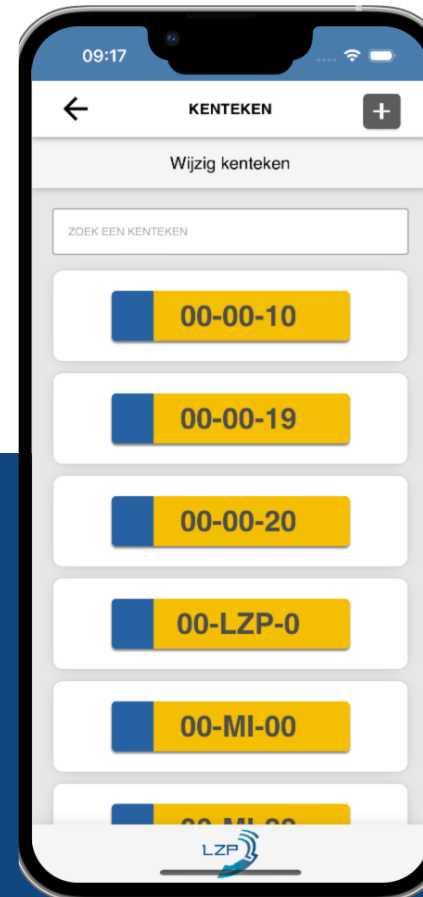

18 Select "MENU".

19 Select "Kenteken aanpassen".

20 Select the required registration number from the list.

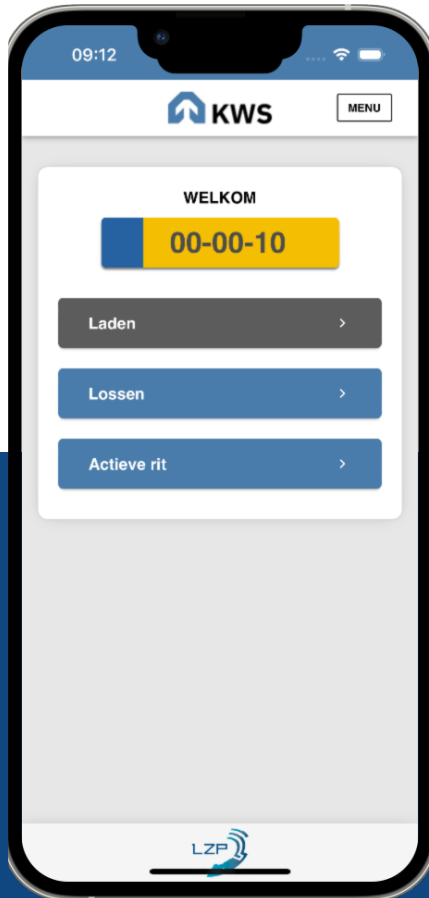

About screen 20

The list of registration numbers available to the driver is determined by the VIHB number entered during app registration (screen 2). For example, drivers registered as Carrier X will only see registration numbers belonging to Carrier X.

Adding a new registration number

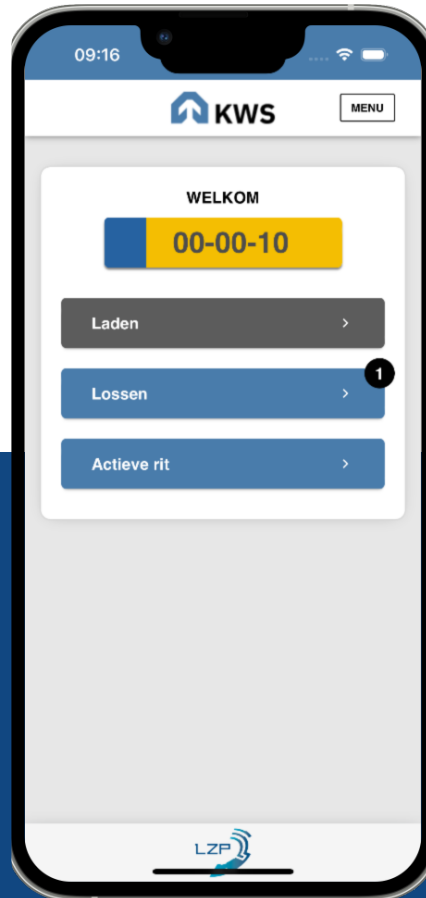

21

Select "MENU".

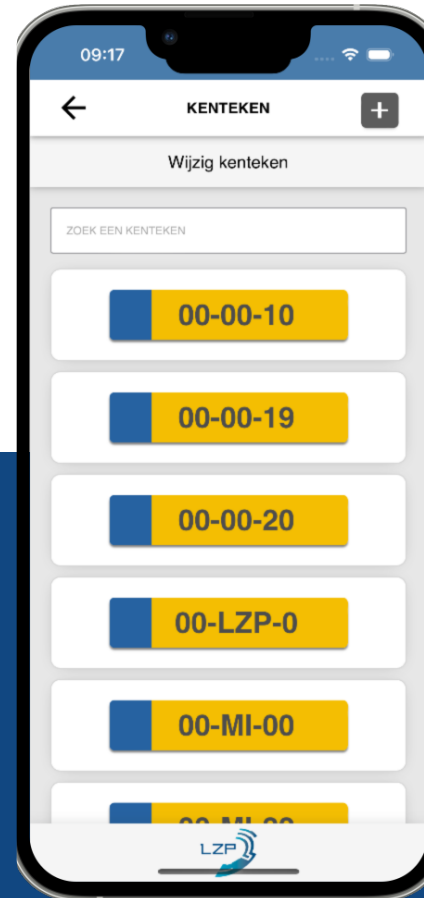

22

Select "Kenteken aanpassen".

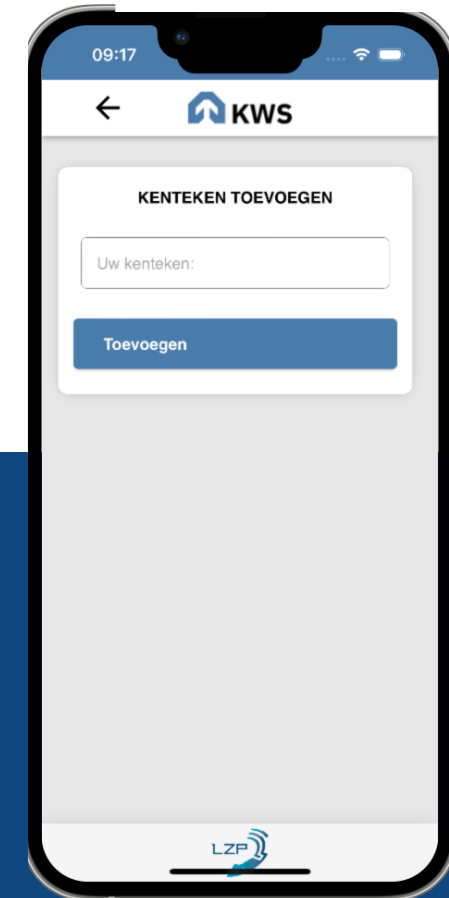

23

Press the "+" button in the top-left corner.

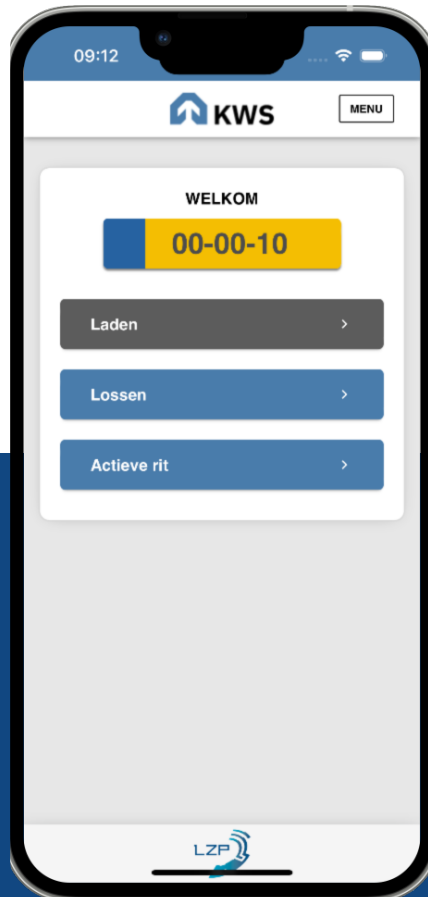

24

Enter the required registration number and press "Toevoegen".

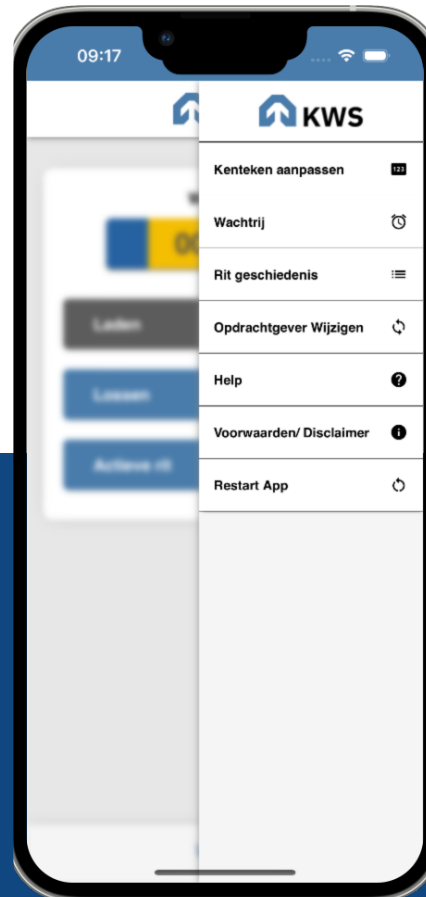

Viewing the queue

25 Select "MENU".

26 Select "Wachtrij".

27 An overview of your queued trips.

About screen 27

Trips in the queue have not yet reached the LZP server. This may occur if the internet connection is poor. The app automatically attempts to clear the queue every two minutes. The driver can continue using the app as normal.

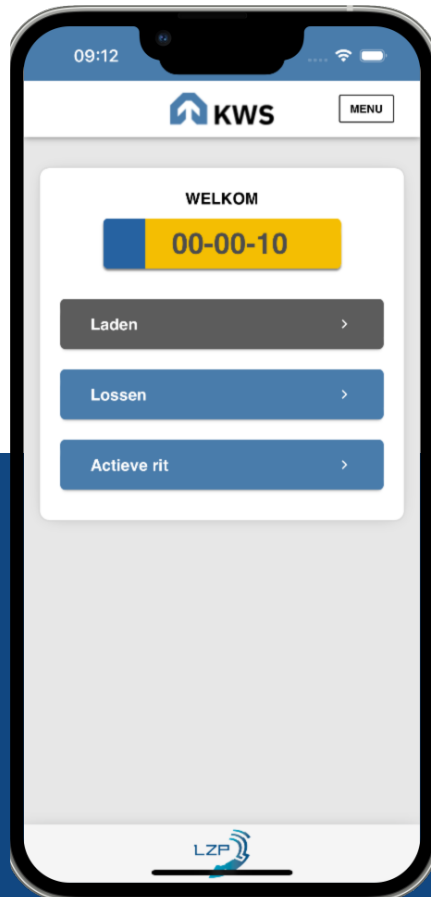

How it works

Viewing trip history

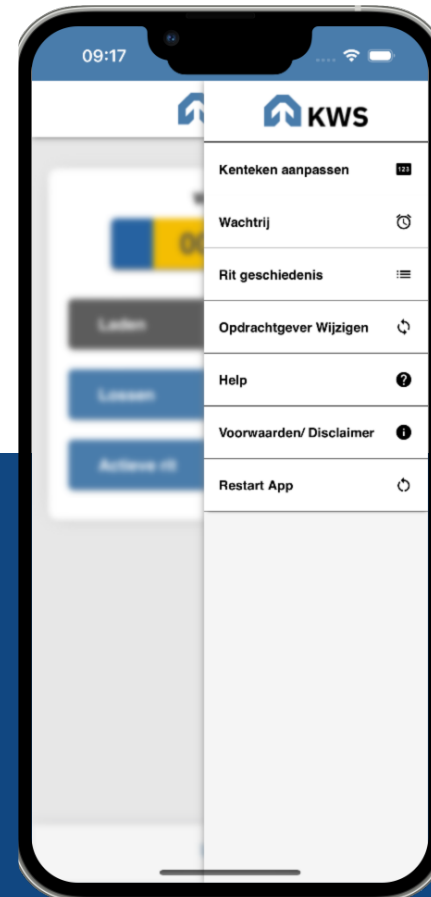

28

Select "MENU".

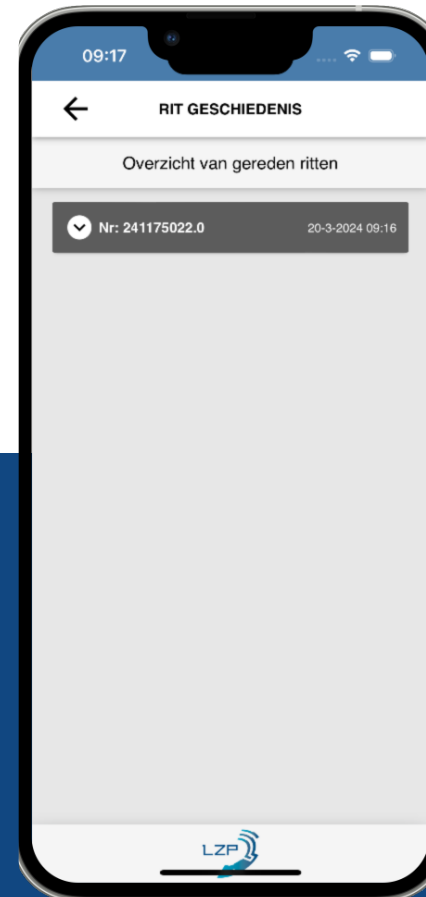

29

Select "Rit geschiedenis".

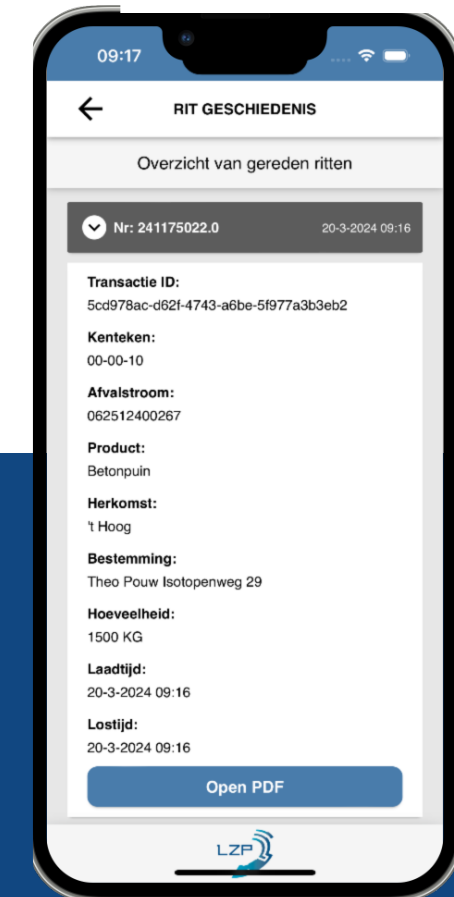

30

An overview of your completed trips.

31

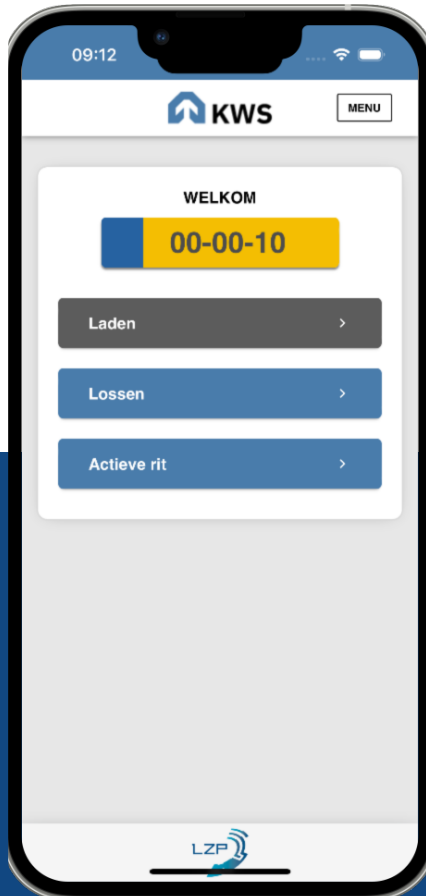

Press the blue boxes to view more information about a trip.

The help page

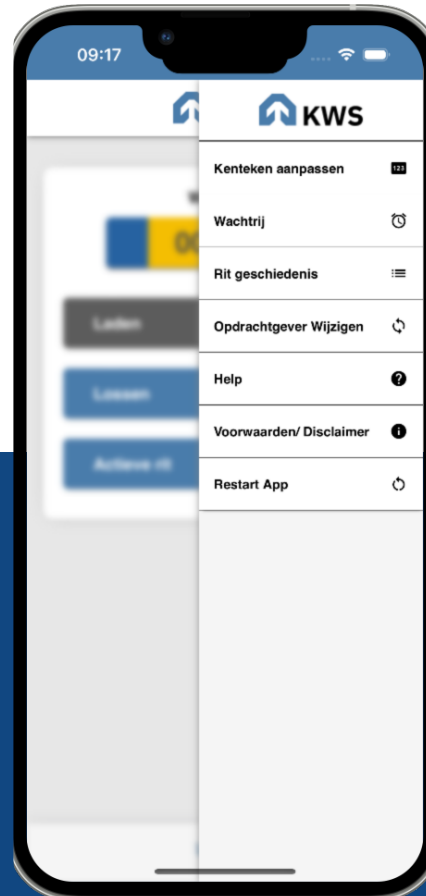

32

Select "MENU".

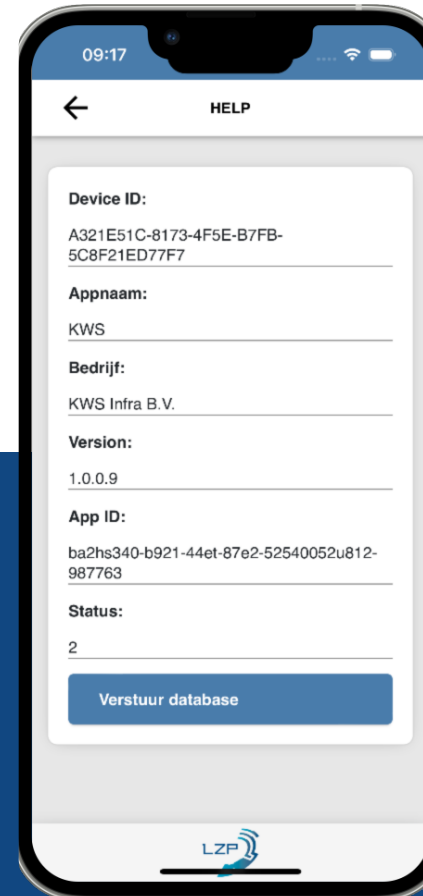

33

Select "Help".

34

An overview of information that may be useful to the LZP helpdesk.

About screen 34

Using the "Send database" button, the driver can send the local database to the LZP developers. This may be useful if an error occurs in the app. The LZP developers can then see exactly what is going wrong and resolve the issue.

Viewing the disclaimer

35

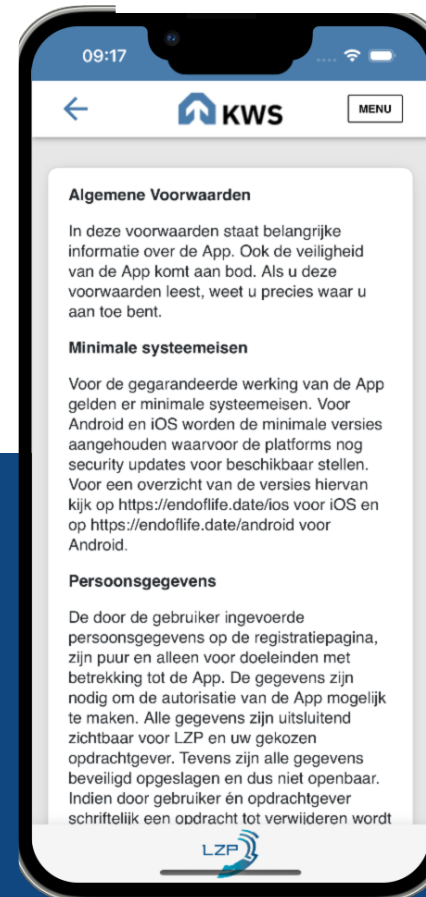

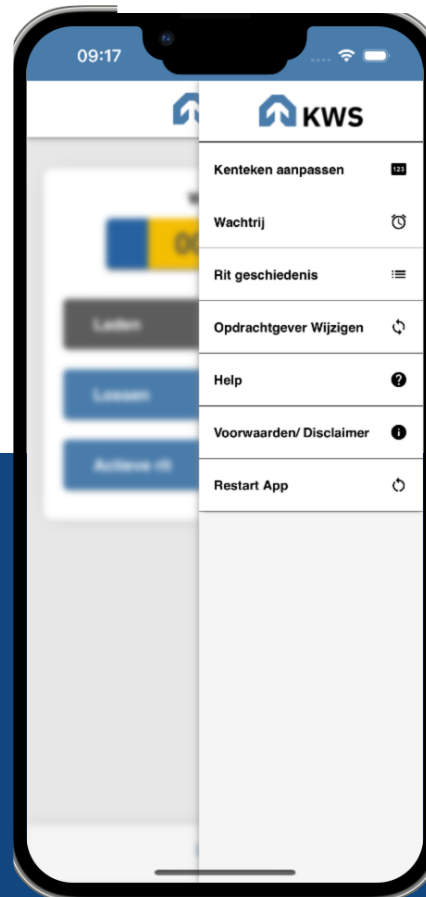

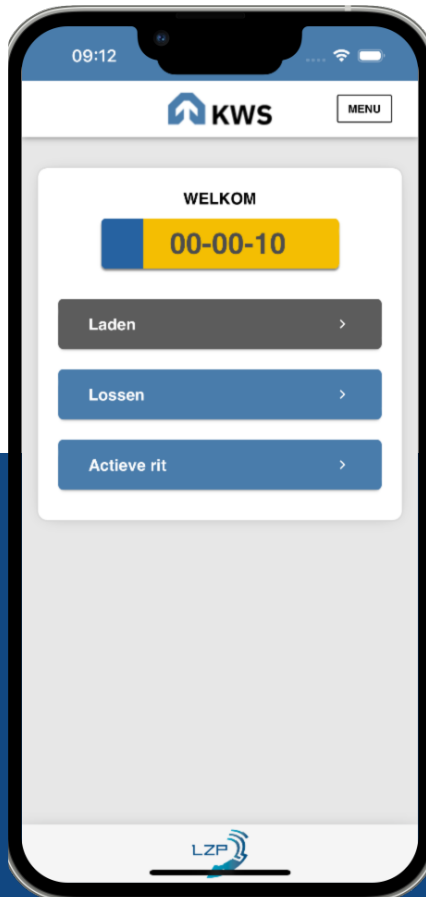

Select "MENU".

36

Select "Voorwaarden / Disclaimer".

37

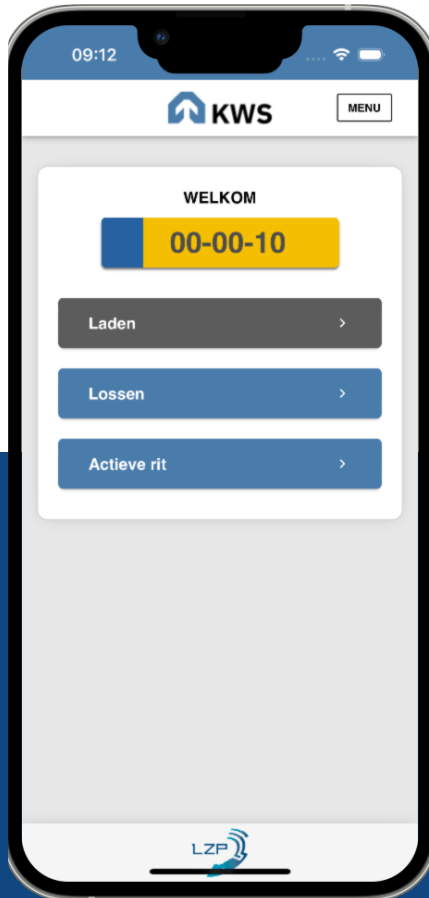

Here you can read the disclaimer for the LZP app.

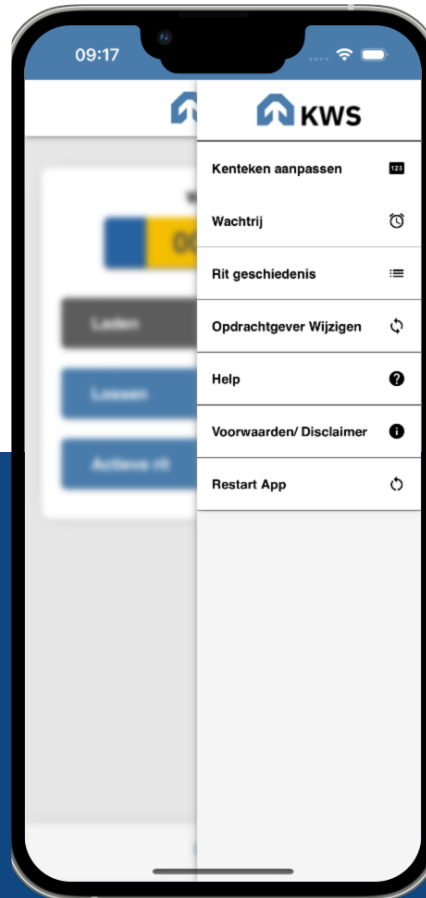

Restarting the app

38

Select "MENU".

**39**

Select "Restart".

About screen 39

The app will restart and automatically retrieve the latest data.
